One of our prominent fellow-townsmen and community boosters, James Turner, is making the race for the Republican nomination for State Senator. From all indications and hearsays he is making a strong pull for the place. He is a good mixer and is quite popular in this part of the district, where he is a rancher of considerable influence. Owning to the busy season in the fruit, and undue modesty for a political aspirant he has not yet done much publicity work but expects to start things soon.

## Play Ground

The community play ground activities at the school ground is well under way and the big thing needed now is more enthusiasm and co-operation on part of the parents. There are still a few children about the streets who ought to be in attendance where manual training, cooking and sewing as well as supervised play give opportunity for a variety of activities. Each line of work or play has some one in charge who has specialized in that work. Miss Cardiff is in charge of the girls, Miss Dorothy Ainsley will direct the cooking school and Mr. LaMieu has the care of the boys.

This new institution is in its experimental stage and needs your hearty co-operation and support.

## Prominent Resident of Union Passes Away

Mrs. Katie Lurana Downing of Los Gatos and Almaden Road passed away June 19 at a sanitarium in Belmont, and was buried from the family home Wednesday afternoon, interment being made at Los Gatos cemetery.

Mrs. Downing was taken ill some months ago on her way to San Jose to attend the annual meeting of the District Congress of Mothers, of which she was an officer, and has been in the sanitarium the greater part of the time since.

The deceased lady had been an active worker in the Parent-Teacher Association of the Union School, having served in many capacities, including that of president. She was also one of the directors of the Union Club House, and took an active part in the local affairs of that community, from which she will be greatly missed.

Of her immediate family there are living, her husband, Arthur Downing; a daughter, Mrs. Hazel Magnuson; and sons, E. Kenneth and Arthur H. Downing.

## Assemblyman Wright

Elsewhere in these columns is the political announcement card of Hon. T. M. Wright who is seeking the Republican nomination for the assemblyman from the 44th district. Mr. Wright is the holder of that position and his numerous friends have urged him to make the race for re-election. He has held the position for two terms to the entire satisfaction of his constituents. He has been a tried and true servant of this district and any supporter may point with pride to his record. He has always stood for the enactment and enforcement of the moral laws.

His eminent standing thruout the district is a sufficient surety of his faithful performance in office.

## Your Time

With thirty or forty customers waiting their turns at one time, the store would look pretty busy.

But think of the wasted effort. Forty customers losing an average of fifteen minutes each, would be equivalent to one person waiting ten hours—a big day's work.

But there's a better way. That is, have the orders booked for delivery and filled on our time—not at the expense of your time. This method we use, daily.

That expresses store service—system compared to the haphazard. The service method proves to be, for busy people, the cheapest way. It's for you, use it.

## WOUNDED LIONESS DRAGS

## SHEPHERD TO CUBS

Chester.—After firing four shots into the body of a lioness and stabbing her with a dagger, Guiseppe Martin, a shepherd, became unconscious and was dragged to the mouth of her lair.

This is the story Martin told to A. W. and Morris Goings and Mrs. Rachael Montgomery, all of Corning, who happened upon his camp nineteen miles from here, while he was dressing his wounds. They gave him further attention with a Red Cross aid kit. Martin's ears had been nearly chewed from his head, his fingers were badly mutilated and his body and face severely lacerated.

According to the tale of Martin, he drove his flock of sheep toward the summit of a mountain when the sun arose.

Leaving the sheep, he walked to the top of a crag, where he found himself confronted by a mountain lion, which promptly attacked him. He fired four shots from a .32 caliber revolver and then drew a knife from his belt when the beast closed with him, inflicting several stabs.

Then Martin lost all sense of what next happened. When he returned to consciousness, apparently by some time later, he found he had been dragged a short distance to the mouth of a cave in the rocky ledge. The lioness was stretched dead four feet from him. Two cubs had gnawed upon his ears until they were almost gone and had chewed upon his fingers.

## CHILD BRIDE IS BROUGHT

## TO SAN FRANCISCO

San Francisco.—Clyde M. Spinning and his thirteen year old bride who were arrested in Los Gatos Thursday, July 15, after a state-wide search, were brought to San Francisco from San Jose by Sheriff John C. Cline of Los Angeles on the first lap of their return trip to the South.

The child wife pleaded with the sheriff not to handcuff her husband but her tearful pleas were ignored by the sheriff. All the way from San Jose to San Francisco the young wife implored the sheriff to remove the irons that bound her husband's hands, but the pleas fell on deaf ears and Spinning arrived here securely handcuffed.

Spinning, who is known under a number of aliases, is charged with abducting his girl bride and also with the embezzlement of a \$100 Liberty bond belonging to her mother, Mrs. Anna Magee.

The couple were married at Visalia but it is understood the mother of the girl will bring annulment proceedings as her consent to the wedding was not secured.

## ARREST PARTNER GRIEVES

## WOMAN SHOPLIFTER

San Francisco.—Mrs. Grace Rogers was sorry that she got herself into jail by stealing.

But she appeared to be quite as sorry that Donald Birdsall, a youth who was found in her apartments when she was arrested Thursday night, July 15, also should have been taken into custody.

"It is a shame to hold Donald," she said, "He doesn't know a thing about this whole affair."

Mrs. Rogers is charged with shoplifting. She appeared before Police Judge Morris Oppenheim July 16. Her case was continued one week.

As soon as bailiffs started to lead her back to the city prison in company with a motley crowd of prisoners she fainted. It was a quarter of an hour before she came to.

Birdsall also appeared in court. He is being held on a charge of vagrancy. His bail has been fixed at \$1,000.

Mrs. Rogers is alleged to have gone into three jewelry stores and to have stolen articles.

## Learn To Shot From Marines

San Francisco.—Young men who aspire to become marksmen with the pistol or rifle are offered an opportunity by the United States Marine Corps.

The Marine Corps is conducting a summer school of instruction for civilians at Mare Island from July 26 to August 8. Students of universities, colleges and high schools are eligible for instruction in the use of the service rifle and pistol. In addition they will have an opportunity to learn something about machine guns and automatic rifles.

The only expense will be the cost of transportation to Mare Island and about eighty cents a day for "chow." Applicants may enroll by reporting on Mare Island July 26 or by writing to the Officer in Charge of the "Summer School of Instruction for Civilians," Marine Barracks, Mare Island, Calif.

## FIVE CONVICTED RAILROAD

## MEN ARE FINED \$1000

Los Angeles.—Five railroad men convicted of having violated the Lever act by participation in the switchmen's strike last April were sentenced to pay fines of \$1000 each by Judge B. F. Bledsoe in the United States District Court here July 15.

The men upon whom fines were imposed were R. W. Canega, Barstow, Cal., and William G. Fannon, Oscar F. Lefever, A. N. Miller and Clyde H. Isrigg of Los Angeles.

In passing sentence Judge Bledsoe at first stated the men should stand committed until the fines were paid, but he later modified his ruling, granting stay of execution for ninety days.

Judge Bledsoe stated he considered every man who engaged in the strike equally guilty with the five who were convicted. He said he believed all of the strikers should share in the punishment and expressed the hope that the fellow workers of the convicted men would help pay the fines.

Forty were indicted for alleged participation in the strike. The cases against nine were dismissed before trial. Of the remaining thirty-one, five were convicted, fourteen acquitted, and in the case of twelve the jury disagreed.

There has been no decision yet as to whether the twelve upon whose guilt or innocence the jury could not agree would be tried again.

Before passing sentence Judge Bledsoe denied a motion for a new trial and arrest of judgment.

## MRS. WOODCOCK IS

## TEACHER IN HUMBOLDT

San Francisco.—Mrs. Alice Woodcock, principal in the "flirt murder" case tried here several months ago, has secured a position as teacher in one of the schools in Humboldt county, according to word reaching this city. Mrs. Woodcock resided in Humboldt county before coming to San Francisco.

Mrs. Woodcock was tried in the local Superior Court on a charge of perjury growing out of the murder of Edward Kelly by her husband. She was originally arrested on a murder charge, but that charge was dismissed. She was found guilty of perjury and sentenced to serve from one to fourteen years in prison. She is now on bail pending the appeal of her case to the higher courts.

Woodcock, who was tried and acquitted of the murder charge, was later indicted for perjury and since that time has been a fugitive from justice.

Camp Curry, Yosemite.—The body of 12 year old Gertrude Kistler, daughter of Congressman and Mrs. Segwick Kistler of Lockhaven, Pa., who was drowned near Happy Isles in the Merced river on July 7, was found July 12, a short distance from where she sank.

## PASSES AWAY

San Francisco.—Dr. Maurice J. Sullivan, for fifteen years a member of the College of Physicians and Surgeons faculty, died at his home, 525 Baker St., July 15.

For the last fifteen years he has been professor of therapeutics, operative dentistry and dental pathology of the College of Physicians and Surgeons.

## CHILD-WIFE SOUGHT

## BY OAKLAND SPOUSE

San Francisco.—Charles Leone, 3237 Hossis street, Oakland, has appealed to the local police to assist the Oakland authorities in a search for his eighteen-year old wife, Mrs. Elone Leone, who disappeared from their home on July 5. She is described as being five feet four inches tall, weight 154 pounds, dark hair and eyes, and was wearing a blue velvet dress and black fur when she disappeared.

## PANAMA CANAL WATER

## SUPPLY AT LOW STAGE

Washington.—Dependent entirely upon the water from rains of the wet season gathered in the great storage reservoir of Gatun lake for its operation, the Panama Canal was brought down to a narrow margin of supply by the unprecedented dry season just ended.

The lake was reduced to within less than a yard of the point where there would not have been sufficient water for safe navigation.

Sacramento.—Dan Cupid broke all California records in June this year by bringing more couples to the marriage altar than had ever taken on nuptial bonds in the six months of any year since the Golden State was admitted into the Union.

Records compiled by L. E. Ross, director of the Bureau of Vital Statistics of the State Board of Health, shows that last month 5,120 couples were married in California, a gain of 1,153 over June, 1919. Los Angeles County had 1,400 brides in the record month and San Francisco County 852.

Los Angeles.—The county grand jury, just before opening an investigation requested by Mayor Snyder, into alleged graft in the police department, indicted four men here July 16, on charges of grand larceny and extortion, two of the defendants having formerly been Los Angeles police officers. The former officers are D. N. Sanders and William N. Swann. Claude Morton, an attorney, formerly assistant city prosecutor, was another of those indicted. These three were quickly arrested. The fourth defendant was not in custody and his name was not announced. It was said he formerly was a police officer at Venice, near here.

San Rafael.—The cornerstone of "Film City" will be laid Saturday, July 31, when the Argonaut Film Company takes possession of Santa Venetia, a tract of land three miles north of San Rafael, on which it is proposed to erect a studio and a Greek theater. A programme of sports and entertainment has been planned and a social boat will be run from San Francisco that day to carry delegations from the Dolphin Club, the Corinthian Club, the Bohemian Club, the Sequoia and Argonaut clubs and other organizations who will take part in the ceremonies.

San Francisco.—The body of an unidentified man, apparently about twenty years of age was found floating in the bay about two miles off the Alameda Pier, July 16. The discovery was made by Captain Dan Fitzgerald of the Southern Pacific launch Port Costa. Following his discovery Captain Fitzgerald had the body towed to the Alameda pier where it was turned over to officials of the Alameda County morgue, where efforts will be made to establish identification. According to the coroner's office the body was that of a man about 20 years of age, with dark hair, dark complexion and dark eyes, and roughly dressed. In the pockets was found \$1.30 but no means of identification. The body has apparently been in the water for two weeks. There were no marks to indicate foul play but an investigation will be made to ascertain the exact cause of death.

OH! MARINE AND SUBMARINE

The new owners propose to encourage homeseekers by a plan of sale in tracts of from five to forty acres which will enable settlers to pay for their holdings out of a portion of their crop. ## THE CHANCE.

"I've never had a chance," said he. His statement interested me. I traced his record back to find Just what had kept that man behind. I found that one immensely rich. Had one time filled the station, which This grumbling fellow occupied. He hadn't felt his hands were tied.

Another started where he stood And he had certainly made good. The task was very commonplace. And irksome, too, and hard to face. But several men their spurs had won Because their best they'd always done. And past this humble post could see The better jobs that were to be.

From humbler stations, too, I learned. That others had promotion earned. They'd hadn't felt they weren't compelled To failure by the jobs they held. With vision they had clearly seen That there's no duty quite so mean. But, well performed, within it brings The chance for bigger, better things.

If you've a job then never wall That you're a victim, doomed to fail. No man can hide what you can do, So thoroughly from sight as you. Your worth the meanest place will tell If only you will do it well. You've got a chance to rise or fall If you possess a job at all.

## Care

By GEORGE MATTHEW ADAMS

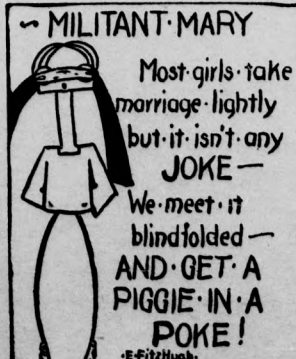

ONE of the greatest enemies to Society as a whole and to the individual in particular is Indifference. Indifference unopposed eats its way silently yet surely, and twines its death-gripping tendrils into almost every avenue of human endeavor.

Care—Care! It is Indifference that is filling the divorce dockets. It is Indifference that is feeding Graft. It is Indifference that is constantly slapping the face of Good Government. It is Indifference that blocks the way of advancement of every great and good project or purpose of people, of towns, of nations.

Care—Care! It is Indifference on the part of workers in the store, the office, and in public stations that keeps them down and rusts their very souls—while others pass on and up.

Care—Care! Pull off your coat and roll up your sleeves and with cheerfulness and willingness in your system enter upon your daily tasks, you have no one but yourself to blame if hind-end conditions dwarf you and push you out of the path to useful Accomplishment.

Care—Care!

## THE PICNIC

THE picnic is a place where people go to relax from labor and study the bug family. There is no place on earth where the habits and personal eccentricities of the wandering and dissatisfied bug can be studied to greater advantage than at a picnic, when the tablecloth has been laid directly over a smoldering ant hill.

Picnics are held in the summer time, when the grass is long and green and insect life is more animated. Great care is taken to read the weather forecast and pick out a day that winds up in a moist rainstorm. This teaches us that the United States weather bureau, when the picnic is held, is directly over a smoldering ant hill.

The Man Who is First to Get to the Table but Never Can See Anything to Do Except Prophecy Rain and Fight Flies.

which is supported by the patient, perspiring taxpayer, is a lugubrious and agonizing joke. If congress would quit distributing free garden seeds and give out trustworthy barometers instead, fewer picnic parties would have to be hauled home in a hack and wrung dry by anxious parents in the dead of the night.

Picnics are composed of people who go and people who provide. Why is it that so many people are able to go to picnic after picnic and never have to furnish anything but a bubbling laugh and two baking powder spoons? The injustice of this arrangement has rankled in many a feminine breast and has caused close neighbors to refuse to speak to each other except at prayer meeting. There is also the man who is first to get to the table, but never can see anything to do except prophecy rain and fight flies. That we are a humane and tender-hearted people is shown by the fact that these two classes are always welcome and are even given some of the white meat.

Men are invited to picnics on account of their lovable attributes and their ability to produce a fire out of water-soaked brush. A picnic without a few men to build the fire and eat all of the surplus potato salad would be a greater failure than an attempt to sell envelope chemises on the African coast. Unmarried men are much sought after at picnics, as they know how to hang a hammock and also how to disport themselves therein. One of the most pathetic sights in life is a picnic party composed entirely of old maids who have no more use for a hammock than a bald-headed man has for a set of military brushes. Picnics would be more popular if they were held on high, dry ground, where the death chant of the coarse, aggressive mosquito could not be heard.

rather a low standard of judgment?

A PLAN is being devised whereby we may have a comprehensive  
history of Campbell, its industries and business houses, schools and  
churches. This can only be done by the willing co-operation of our  
townspeople in giving what information they may possess. It is hop-  
ed that we may be able to publish each week a life story of one or  
more of our business interests with as much of the personal touch as  
may be given.

If you know of any early interesting facts concerning Campbell or  
its institutions, we will greatly appreciate it if you will pass the word  
on to the Press.

W. J. Bryan again a presidential candidate. That at one time  
sounded like a joke. It may still be, on the other fellow, in view of the  
amount of general dissatisfaction heard expressed almost daily concern-  
ing the gang manipulations at both party conventions. Mr. Bryan  
has a number of staunch followers of his own party and there are  
many in other parties who may support him because of his "dry"  
stand. He may pull enough votes from one of the party candidates to  
help land the other in the presidential chair. That would be a joke on  
some politicians.

THE FIRE SEASON is here and it behooves all travelers and  
campers to take every precaution to prevent the useless destruction of  
timber and the beauty of our mountains. Several bad fires have al-  
ready followed in the wake of careless smokers or campers. Save the  
forests. Only nature working for generations can restore them.

## Results Of Boosting

Mr. Wm. Falder, brother-in-law of T.  
J. Henderson and whose family is here  
visiting, is considering buying a prune  
orchard in this valley where they expect  
to live in the near future. How's that,  
after a residence of thirty years in the  
"City of Angels?"

A brother of Mr. Henderson will ar-  
rive soon from the east and expects to  
settle in Santa Clara County. A sister,  
Mrs. Shirlock and family, have recently  
come from Canada and located in Los  
Angeles, but we shall expect to hear of  
their removal to this region at some fu-  
ture time.

Mrs. W. C. Bohnett has taken a po-  
sition in the J. C. Ainsley Packing Co's.  
office during the busy season.

Mr. Davidson, recently from Chicago,  
has purchased the R. A. Holmes 5 1/2  
acre orchard on North Central with their  
new six room bungalow. Mr. Holmes  
will live there until he can locate another  
domicile.

Mrs. Clara Gilman is entertaining her  
brother and wife who are here for a vis-  
it. Yesterday with Mr. York they went  
to Stanford and over the La Honda high-  
way to the coast for an outing.

Rev. H. L. Preston and family will  
return this week from their vacation and  
Mr. Preston expects to occupy his pul-  
pit next Sunday. During his absence  
the Rev. Merrill of Saratoga has been  
chief substitute and has filled the po-  
sition very acceptably.

By latest reports, Jack Scott and Paul  
Marston, who were quite seriously in-  
jured near Capitola recently in an auto  
accident are steadily improving. Jack  
sustained several broken ribs and Paul  
several strained tendons. They are at  
the Hanly hospital in Santa Cruz.

The members of the consolidated dis-  
trict school board met Wednesday even-  
ing and organized, selecting Mr. Geo.  
Schuyler president and T. A. Robinson  
clerk. Other members of the Board are  
Mrs. M. E. Purmort, and Messrs. D. N.  
Bood, C. E. DeSelle and Ernest Rich.  
Matters concerning transportation were  
discussed and held over with others for  
the next meeting.

## Out For Congressman

Fred H. Schauer, of Santa Barbara,  
was in Campbell Saturday in the in-  
terests of his candidacy for the Republican  
nomination for Congress from this dis-  
trict. Mr. Schauer was accompanied by  
Byron R. Terry, also of Santa Barbara,  
a business man who is on his campaign  
committee.

Mr. Schauer has lived in Santa Barbara  
County for the past 32 years, and is very  
widely known throughout the southern  
part of the state. He is a practicing at-  
torney at Santa Barbara, and received  
his law education at George Washington  
University and at Stanford. He gradu-  
ated from Occidental College in 1903  
and is now a trustee of that institution.

His candidacy is the result of a desire  
on the part of the Republicans of his  
part of the district to offer a man upon  
whom the party can unite, and he has the  
solid support of the citizens of his own  
community. Prominent in all good caus-  
es, he has long been an outstanding fig-  
ure, as President of the Chamber of  
Commerce of his County, President of  
the Rotary Club, member of the Court,  
Probation Committee, and other char-  
ity and public service organizations.

The Morning Press of Santa Barbara,  
recently in its editorial columns, com-  
mented upon his candidacy thus: "If  
the nomination and election depended  
upon his neighbors Fred H. Schauer  
would be the next representative in  
Congress from the eighth district, and  
what better recommendation can a man  
have than the good will of his neigh-  
bors?"—Adv
